The Test Collection of Educational Testing Service contains an extensive collection of standardized tests as well as some experimental tests in education and psychology. It also includes publishers' catalogs and descriptive materials, information on scoring services and systems, test reviews, and reference volumes on testing. The tests are indexed by title, author, number (an accession number assigned when the test is indexed), and subject.

Qualified persons, both inside and outside of Educational Testing Service, may have access to the materials in the Test Collection. Publishers' restrictions regarding access to test materials are carefully observed.

For further information about materials and services listed in the Bulletin, readers are requested to communicate directly with the appropriate publisher or organization. Addresses are listed on pages 57-64.

For additional information about the Test Collection or the *Test Collection Bulletin*, write to Test Collection, Educational Testing Service, Princeton, New Jersey 08540.

NEW PUBLISHERS

Ediciones Rialp, Preciados 44, Madrid 13, Spain.

Higgins-Wertman Associates, P. O. Box 9012, Delaware Station, Albany, New York 12209.

Psychological Publications, Inc., 5300 Hollywood Boulevard, Los Angeles, California 90027.

Psychological Services Press, 364 Fourteenth Street, Oakland, California 94612.

TEST SCORING SERVICES AND SYSTEMS

The *Automata Corporation* has developed the 450 Test Scoring Machine for use by teachers in scoring in-school objective tests. It scores up to 450 50-question cards in one hour.

The Institute for Behavioral Research, Inc. has developed a computerized scoring service for the Holtzman Inkblot Technique. The availability of this service should simplify the use of this test in large scale research.

The *Shuford-Massengill Corporation* has developed Valid Confidence Testing for use with teacher-made and standardized tests. The person taking a test responds with his degree of confidence that he has selected the right answer rather than simply choosing an answer.

The *Testing and Advisement Service* offers machine scoring and statistical services on tests using Digitek and IBM 805 answer sheets.
